

Pool Play Rules for JV Girls' White and Yellow Divisions

In order to guarantee every team in our tournament three games, we have chosen to divide the JV Girls' White and Yellow Division Teams into groups of six. JV Girls' Red and Green Divisions will have bracket play. Since high schools are only allowed to play one game per day, there will be one pool of six and each team will play two games out of the pool. On the last day of the tournament, teams will play for First, Third, and Fifth place. Conceivably, all six teams could finish with a 1-1 record. Consequently, the Bank of the Carolinas JV Holiday Classic has established the following tiebreaker formula:

1. Seeding for Day 3 of the tournament will be based on overall records of the teams.
2. If teams have identical records, fewest points allowed will determine the higher seed.
3. If team records are identical AND fewest points allowed are the same, a coin flip will determine the higher seed.
4. In the event of a forfeit, the forfeiting team will be charged with 75 points and the team that showed up for their game will only be charged 25 points.

Please remember that unlike bracket play, a team could still finish first in their pool even if they lost on the first day. Therefore, Day 2 is just as important as Day 1.
